

The background is a solid teal color. On the left side, there is a complex graphic composed of several white lines. These lines are mostly vertical and parallel, but they curve and bend at various points, creating a sense of movement and depth. Some lines are straight, while others are curved, and they overlap each other. The overall effect is that of a stylized, abstract architectural or structural element.

SHEY

— MODULAR LOUNGE SEATING —

WE ARE ALWAYS ON THE MOVE, AND YOU?

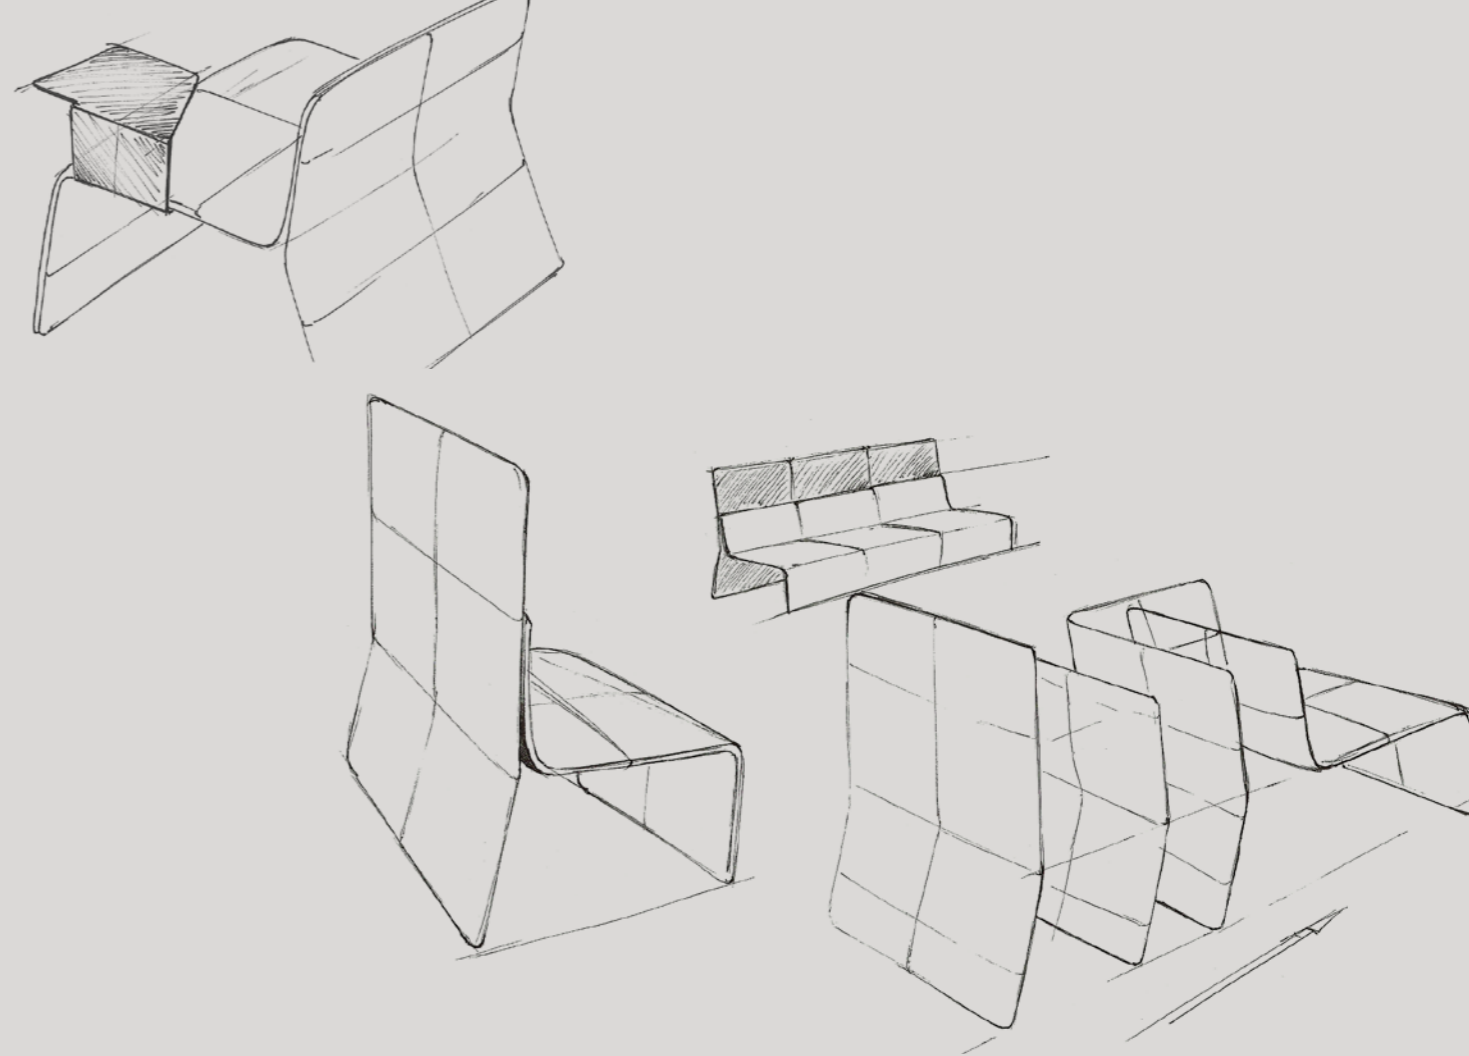

BY RAMOS&BASSOLS

Sometimes the simplest designs involve high technical complexity, which is the case of the SHEY collection. With the aim to achieve a **language of light SHEY** of adjusted thickness, without sacrificing comfort and the necessary ergonomics, the designers Ramos&Bassols have developed for Actiu **geometries with internal complex structures and large molds** which provide the final piece with great quality.

En ocasiones los diseños más sencillos implican una gran complejidad técnica, éste es el caso de la colección SHEY. Con el fin de lograr un **lenguaje de formas ligeras** de grosores ajustados, sin renunciar al confort y la ergonomía necesarios, los diseñadores Ramos&Bassols han desarrollado para Actiu unas **geometrías con estructuras internas complejas y moldes de gran tamaño** que aportan a las piezas finales un aspecto de gran calidad.

Parfois les designs les plus simples sont de grande complexité technique comme la collection SHEY. Afin d'obtenir des **formes simples et ajustées**, sans renoncer au confort et à l'ergonomie nécessaire, les designers Ramos&Bassols ont développé pour Actiu des **géométries avec des structures internes complexes et des moulages de grande taille** pour obtenir des produits de grande qualité.

Bisweilen können die schlichtesten Designs technisch hochgradig komplex sein, und genau das ist bei der Kollektion SHEY der Fall. Um eine **leichte Formensprache** mit eher schlanken Teilen zu erreichen, ohne dazu bei Komfort und Ergonomie Abstriche zu machen, haben die Designer **Ramos & Bassols** für Actiu **großformatige geometrische Formteile mit komplexem strukturellem Aufbau** entwickelt. Das Ergebnis sind Formen, die in jeder Hinsicht Qualität ausstrahlen.

SHEY is one of the new Actiu programs , designed by the studio Ramos&Bassols , conceived under the concept of differentiator and avant-garde, Soft Seating, which transfers the office world towards home to make you feel as if you were there.

The result is a slim, very light and comfortable product, which hides a great **robust structure**. In addition to its wide range of models and customized finishes, colours and possibilities that adapt itself to various sectors such as **contract, commercial, businesses, health, education or airport spaces with high transit**.

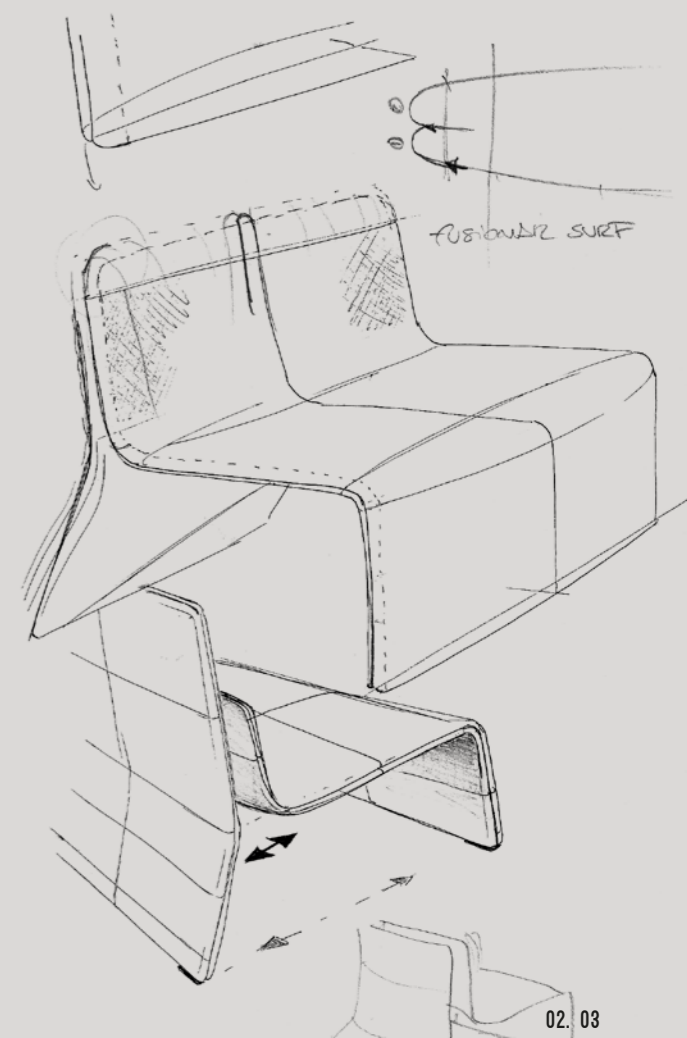

SHEY es uno de los nuevos programas de Actiu, diseñado por el estudio Ramos&Bassols y concebido bajo un concepto diferenciador y vanguardista, el Soft Seating, que traspasa el mundo de la oficina y se acerca al del hogar para hacernos sentir como en casa.

El resultado es un producto de líneas puras, de aspecto muy ligero y confortable, que **esconde una gran robustez estructural**. Sumado a su amplia gama de modelos y acabados personalizables, colorido y posibilidades que se adaptan a sectores tan diversos como el **contract, comercial, empresas, sanidad, educación o espacios aeroportuarios de alto tránsito**.

SHEY est un des nouveaux programmes d'Actiu, conçu par le cabinet d'architecture Ramos&Bassol. Un produit avec un concept distinctif et d'avant-garde, le Soft Seating prend place dans le monde des Bureaux et se rapproche des foyers pour nous faire sentir comme à la maison.

Le résultat de ce concept est un produit aux lignes épurées, très fluides et confortable où se cache une **grande robustesse structurelle**. De plus, la gamme de modèles se complète de différentes finitions personnalisées, de coloris et s'adapte aux divers secteurs comme le **commercial, les entreprises, la santé, l'éducation ou les espaces aéroportuaires de haut transit**.

Das Ergebnis ist ein Produkt mit klaren Linien, das einen leichten und komfortablen Eindruck macht, dabei jedoch von der Struktur her sehr robust ist. Dazu kommt ein breites Sortiment an Modellen und Ausführungen, die sich farblich nach individuellen Vorstellungen gestalten lassen. Damit eignet sich das System gleichermaßen für den Verkaufsbereich, Geschäfte, Firmen, Gesundheitswesen, Bildungseinrichtungen oder stark frequentierte Flughafenbereiche.

Freedom, flexibility and movement are the words which reflect the spirit of the new collective and work spaces. The fixed timetables, operative static positions, closed offices and meeting rooms disappear to make way for a universe dominated by an open, welcoming, collaborative and multifunctional environment.

A meeting place with an active environment which inspires and stimulates, where everything is possible and where productivity and creativity coexist in a close relationship.

Libertad, flexibilidad, movimiento son las palabras que reflejan el espíritu de los nuevos espacios colectivos y de trabajo. Los horarios fijos, los puestos operativos estáticos, los despachos y salas de reuniones cerradas desaparecen para dar paso a un universo en el que predomina un entorno abierto, acogedor, colaborativo y multifuncional. **Un lugar de encuentro con un ambiente activo que inspira y estimula**, donde todo es posible y dónde la productividad y la creatividad conviven en un estrecho vínculo.

Liberté, flexibilité, mouvement sont les mots qui définissent l'esprit des nouveaux espaces collectifs et de travail. Des horaires fixes, des postes de travail statiques, des bureaux et des salles de réunions fermés disparaissent pour faire place à un univers où prédominent les espaces ouverts, accueillants, collaboratifs et multifonctionnels. **Un lieu de rencontre avec un environnement actif qui inspire, stimule** où tout est possible. La productivité et la créativité cohabitent en un lien étroit.

Freiheit, Flexibilität, Bewegung – diese Begriffe geben den Geist wieder, der heute in gemeinschaftlichen Arbeitsbereichen herrscht. Feste Arbeitszeiten, statische Arbeitsplätze, abgetrennte Büros und Versammlungszimmer weichen zusehends einem neuen Umfeld mit offenen Räumen, Behaglichkeit, kooperativem Miteinander und Multifunktionalität. **Treffpunkt und aktives Ambiente zugleich, inspirierend und anregend**, wo alles möglich wird, wo Produktivität und Kreativität eng verknüpft sind.

SHEY MD SELECTED Product 2014

**LIGHT AND COMFORTABLE
WITH A GREAT ROBUST STRUCTURE**

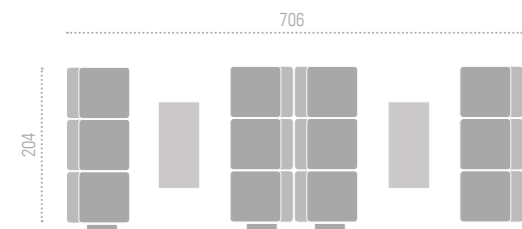

TPU (PUR) FINISH, IDEAL FOR PUBLIC SPACES WITH A HIGH TRANSIT LEVEL

Its technical features include the PUR finish , coupled with the full range of upholstery (leather or textile), makes SHEY and aseptic product , durable and with a texture easy to maintain and clean.

Entre sus características técnicas destaca el acabado PUR, sumado a todo el abanico de tapizados (piel o textil), que hace de SHEY un producto aséptico, resistente y con una textura que facilita su mantenimiento y limpieza.

Parmi ses caractéristiques techniques, nous soulignons la finition PUR et ce large éventail de choix de finition (cuir ou tissu) qui en fait un produit aseptique, résistant et avec une texture pour un entretien et un nettoyage faciles.

Bei den technischen Eigenschaften ist neben der großen Vielfalt an Bezügen und Aufpolsterungen (Leder oder Textil) die Ausführung PUR hervorzuheben – die keimfreie Ausführung von SHEY, die Krankheitserregern fest und mit einer Textur für einfache Wartung und Reinigung.

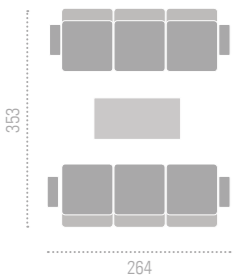

SHEY is a collection of modular seats based on an intelligent system which combines various layers by overlapping them. The combination of the different sheets enable linear growth in progression, addition of accessories, as well as intimate and cosy spaces.

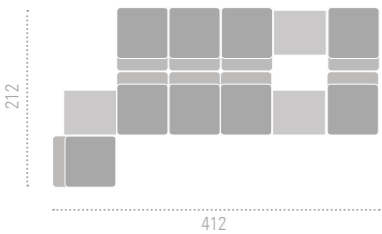

SHEY es una colección de asientos modulares basada en un sistema inteligente que combina distintas láminas a modo de capas superpuestas. La combinación de las distintas láminas permite crecimientos lineales en progresión, añadir complementos, así como conformar espacios recogidos e íntimos.

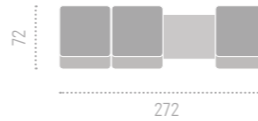

SHEY est une collection de fauteuils modulaires basée sur un système intelligent de différentes couches de lame superposées. La combinaison des lames permet une croissance linéaire progressive, incluant la possibilité d'ajouter des compléments et créer des espaces privés et intimes.

SHEY ist eine neue modulare Sitzkollektion und basiert auf einem intelligenten System, das aus sich überlappenden Elementen aufgebaut ist. Diese Kombination der Elemente ermöglicht lineare Kompositionen mit progressiv gestaffelten Dimensionen, es können Accessoires hinzugefügt und diskrete Räume mit Privatsphäre geschaffen werden.

SHEY ENABLES MORE FRIENDLY, OPEN AND RELAXED ENVIRONMENTS

It is a piece with balance and proportional forms. Robust and stable. A modular, flexible and reconfigurable solution able to adapt to the changing needs of each space.

Es una pieza de proporciones y formas equilibradas, robusta y estable. Una solución modular, versátil y reconfigurable, capaz de adaptarse a las necesidades cambiantes de cada espacio.

C'est une pièce avec des proportions et des formes équilibrées, robuste et stable. Une solution modulaire, multifonction et reconfigurable, capable de s'adapter aux besoins changeants de chaque espace.

Ein robuster und stabiler Sessel, der durch seine Schnörkellosigkeit und ausgewogenen Formen besticht. Eine modulare und vielseitige Lösung, die sich an die sich ändernden Anforderungen anpasst.

FINISHES

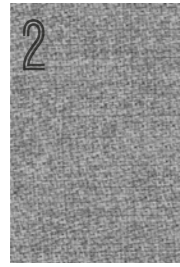

TPU (PUR) textured fabric, pleasant to touch which provides mayor resistance.
Easy to clean with soap and water.

ACTIU

45 YEARS DESIGNING PUBLIC AND WORK SPACES

Actiu is a company with an industrial career in the installation sector, specializing in the creation of furniture, whose flexibility and productive capacity allow the development of global sourcing projects at an international level offering solutions which provide for the welfare of people.

ACTIU TECHNOLOGY PARK A sustainable industrial project.

A flexible, open and transparent architecture space. A project with new prospects certified by LEED® Gold for all the existing buildings that point Actiu as a referent in Europe.

- Energetic production solar plant: 7.000.000 kWh per year
- Rainfall water collection (12.000 m³ capacity)
- Water Tanks: 12.000 m³
- Meeting points, club and nursery service
- Green areas: 130.000 m²
- Total Industrial surface: 200.000 m²
- Corporate Headquarter building: 6.000 m²
- Logistics centre: 18.000 m²
- Production plants: 40.000 m²

LIFE CYCLE ANALYSIS

ENVIRONMENTAL PRODUCT DECLARATION

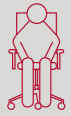

MATERIALS:
Including the extraction and processing of raw materials and component sourcing to its delivery at the Actiu Technology Park.

PRODUCTION:
Consider the production and assembly processes used in Actiu.

TRANSPORT:
Includes transportation from the Actiu Technology Park to the our customers facilities (light commercial transport).

USE:
This stage has not environmentally relevance for life cycle analysis.

DISPOSAL:
Any product can be disposed of in different ways, or become a resource. Aluminum, wood and cardboard packaging is recycled, while the rest is treated as urban waste.

CERTIFICATES AND REFERENCES

ACTIU products fulfill all demands about management, quality and sustainability to provide extra value to the projects using recycled materials to get the recyclable final product.
